How to make a handprint sun

Follow the steps below to create your own masterpiece. Have fun!

1. Gather your materials. You will need a paper plate, some construction paper, yellow paint, a paint brush, a container, glue and scissors.

2. Start by tracing your child's hand a few times on a piece of construction paper. (you can use card or paper) You can use yellow paper but white or orange would work too.

3. Cut out.

4. Paint the paper plate yellow. You can use a number of different paints, for variety but plain yellow paint , crayons or markers are all great.

5. Add some sparkle paint. Paint the cut-out hands. You can use a paint brush or just dip the hands in paint.

6. Let dry.

Glue the hands on the underside of the plate.
