## GRAFHAM WATER 2018

KEY STAGE 4  
JANUARY 2018

Pupils from Key stage 4 attended a three day residential trip to Grafham Water Centre near St Neots to experience a variety of outdoor and indoor activities.

The pupils got the opportunity to take part in Mountain Biking, Indoor Wall Climbing, Archery, Crate Stacking and High Ropes.

The pupils engaged and involved themselves in all aspects of the trip and it was amazing to see some of them confront their fears with heights amongst other things, to achieve an activity objective.

Resilience and teamwork were required on various occasions and this was ever present on the first evenings "Grafham Challenge" involving an outdoor woodlands course and every pupil being blindfolded whilst following a rope along the course!

The final day allowed a rare experience of going out on to the lake in January and having a go on the motor and sail boats. We were very lucky with the weather which gave us an amazing morning to finish off what was an enjoyable trip.

Well done to all the pupils involved and to staff members who supported.
