'LOST IN SPACE!' - FESTIVAL WEEK 2019

For festival week this year we jumped into our spacesuits, fired up the rocket ships and blasted into deep space! We all met special visitors who taught us how to dance like aliens and walk sllloowwwlllllyyyyyy like an astronaut. Our adventures continued with Rae who took us into the woods to find a shiny space capsule full of treasures...

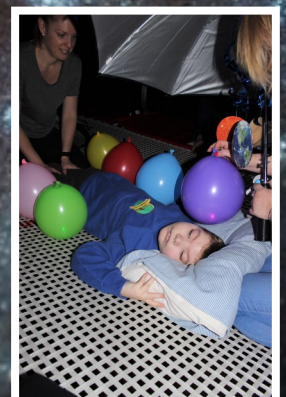

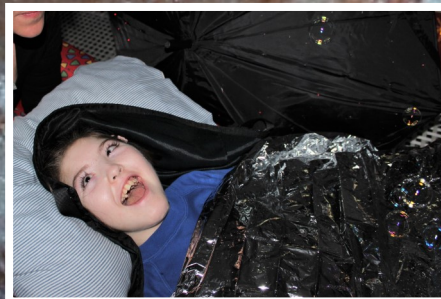

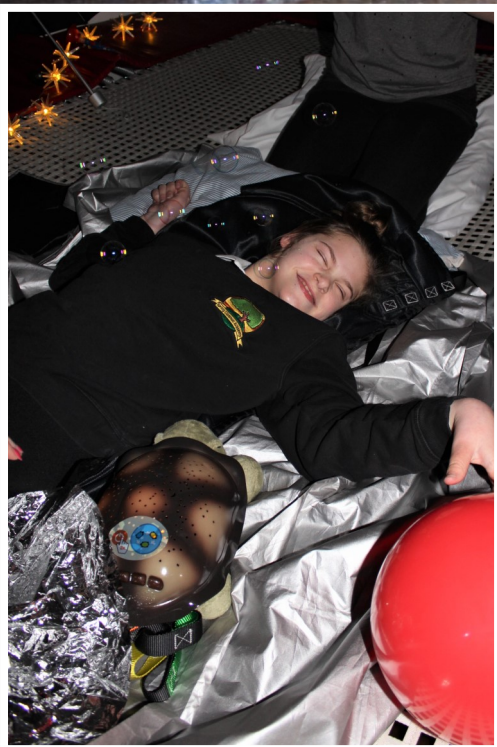

Phil met us in the sensory room for very silly story about aliens and underpants - we even wore the underpants on our head!

Beth organised some intergalactic art workshops and Emma lead lots of exciting music activities. We learnt how to play lots of different instruments and recorded our own amazing space song.

A highlight of the week was our incredible sensory rebound sessions, all based within our special cosmic hall. Ali and Stacey made the most amazing lunar landscape, complete with lights, space sounds and astro-bubbles!

Festival week ended with a (big) bang at our showcase event. We proudly displayed all the work we had made during the 'Lost in Space' week and we even got to show our parents, carers and friends. It was a great end to a busy and fun-filled week of space exploration. More images from our amazing week will be available on our website soon.
