

STEPPING OUT

A satellite provision enabling students early exposure and transition to Cambridge Regional College-Huntingdon Campus

THE PROGRAMME

This initiative was established in September 2022 to allow Spring Common access to a full time designated classroom facility, at the local Cambridge Regional College-Hunts Campus.

Classes in Post 16 have timetabled days each week at the college, allowing our students access to the canteen, library and other SEND course facilities located on campus.

This programme compliments the additional weekly college link already established within our curriculum.

The early exposure supports our complex needs learners in a smoother transition into the next steps of their educational journey. As a result, a high percentage of our leavers select this campus based on their experiences.

STEPPING OUT

WHAT OUR PUPILS SAY

"I like going to the college twice a week and using the canteen"

"I feel better about moving on to college next year as I am used to it already"

"I like seeing my old friends every week from school. They all like going there"

THE IMPACT

- **Early Transition to the college environment**
- **Opportunity to interact with college staff and students**
- **Twice weekly timetabled days on campus**
- **Supports and alleviates the process for our complex needs learners in Post 16**
