Maths Ideas

www.bbc.skillswisemaths Have used this a lot with Functional skills groups students, lots of videos, fact sheets and worksheets on functional topics in maths

www.topmarks.co.uk This website has online games and activities that are also tablet friendly

[lots of early maths skills](#)

Functional skills maths that are useful to help towards independence could include-

Pairing up socks (counting in 2s)

Laying the table- counting as well as making groups of the same items.

Help write the shopping list

Sharing out food or objects could help with understanding of fractions- half or a quarter each. Also understanding of division- half is dividing by two, quarter is dividing by 4.

Keeping a weather diary, helps with days of the week and sequencing.

Measuring in cooking- standard units (grams, kg, ml, litres) Again measurements can be halved ($\div 2$) or doubling ($\times 2$)

Finding 3D shapes- counting faces, corners, edges, matching and finding 'the same'

Ordering objects by size or length- which is the biggest/smallest? Using a ruler to measure these objects.

Board games- snakes and ladders, dominoes, card games, dice games
