

Art Home Study

This is a guide to the schemes of work we are following in class with each group. With each theme are some ideas that you could do at home. The emphasis is on developing skills and exploring different materials and techniques not necessarily producing a 'result'. Feel free to explore themes and activity suggestions from other class groups too if they are appropriate. Repeating activities helps the student learn and embed the skills and ideas.

This website gives some more ideas that would be suitable for working at home:
