

KS4 ANIMAL INTERVIEW

Your English work has been based on animals. Your interview challenge is to find out what is the favourite animal of your family members.

You will need to ask them what their favourite animal and why it is their favourite animal.

You might like to know what pets they have had in the past. Have they had their favourite animal as a pet?

You could also find out if there any animals they do not like, and why they do not like them.

Can you think of anything else you would like to know about animals from the people you interview?

Think about, and try to use, the advice in the information below when you interview your family.
