

Post 16 - Arts Award Silver

Continue to explore your area of career interest. What would you need to do to work in the arts?

Research:

- Qualifications in your chosen area.
- Where you would need to be? (ie: city? Town? Work from home?)
- How much competition there is in your chosen area?
- Where would you get your ideas?
- What equipment would you need?

Write your research up in the form of a powerpoint if you are able to at home and email it to the school office - FAO Beth. You can have help with spelling and technology but the content must be your own ideas.

Good Luck! See you soon!

Beth
